Career Objective

To build a career in Enterprise Innovation by applying my skills in software development, cybersecurity, emerging technologies, and analytical problem-solving to create innovative solutions for real-world business challenges. Seeking to contribute in technology-driven transformation while continuously learning, experimenting, and delivering measurable business value.

Education

Qualification	Institution	Year	CGPA/Grade
Bachelor of Technology (CSE)	Kamala Institute of Technology and Science, Singapur	2023-2027	9.07/ 10
Intermediate	Rajiv Gandhi University of Knowledge and Technology, Basar	2021-2023	8.71 / 10
Secondary Schooling	St. Gabriel's High School	2010-2020	10 / 10

Technical Skills

Programming:	C, Java
Web:	HTML5, CSS, JavaScript (with AI)
Tools:	Git, PowerBI, VS Code
Core:	Data Structures, DBMS, Operating Systems, Computer Networks
Database:	MongoDB, Firebase, supabase

Academic Projects

Project Title: SMADZ-TiltMaze

- Used **MIT App Inventor** to create an intensive **motion-based** control maze game which involves players' reflexive skills and fast problem-solving situations.(shared a post of the working demo of this project in LinkedIn)

Project Title: CampusFix - Institutional Complaint Portal

- Build a modern **Complaint Portal System** entitled – CampusFix(can check out my Git hub repo)
- Designed responsive frontend interfaces using HTML, CSS, and JavaScript.
- Implemented **complaint tracking** and **status management workflows**.
- Utilized database concepts for efficient complaint storage and retrieval.
- Managed project version control using **Git** and **GitHub**.

Personal Portfolio Website :

- Designed and developed a **responsive personal portfolio platform** from scratch using HTML5 and CSS3, transforming a standard portfolio concept into a customized digital experience.
- Engineered a **modern, visually distinctive UI/UX** with custom animations, interactive sections, and responsive design across desktop and mobile devices.
- Applied **structured frontend development and iterative design practices** to improve usability, maintainability, and overall user experience.
- Managed the complete development lifecycle, including **development, version control, documentation, and deployment using GitHub and GitHub Pages**.

Internship Experiences

- Codsoft – Web Development Intern
- Decodelabs - Cyber security Intern
- Jyestya Corporate Entity – Cyber security Intern
- ProdigyInfotech – Cyber security Intern

Certifications

- Java Full Stack With React JS and AI - Conducted by Brainovision Solutions India Private Limited
- Ethical Hacking Virtual Internship - Supported by Eduskills.
- Cybersecurity Associate (Beginner) - Pregrad.
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional
- DBMS elite score certificate – SWAYAM NPTEL
- Other certifications follow link - <https://scubek06.github.io/Pavo-Portfolio/#skills>

Extracurricular Activities

- Active Classroom Representative
